### **DETAILED ACTION**

1. This action is in response to the amendments filed on 10/04/2005.

#### ***Allowable Subject Matter***

2. Claims 1 and 3 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claim 1 is directed to a detailed and ordered method for displaying an advertisement on a mobile communication terminal. The method, step (b) comprises separate version searching, update determination, reliability searching of the stored advertisement data to be updated, determination of the reliability, and storage of the advertisement data whose reliability is determined in the storage device.

The closest prior art of record is Gerszberg as applied in the prior Office Actions. Gerszberg discloses all within the claims except the recited reliability steps.

The remaining prior art of record fails to teach or fairly suggest the obviousness of substantially modifying Gerszberg in order to arrive at the invention as claimed in detail by the applicant.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Claims 1 and 3 have been renumbered to claims 1 and 2, respectively.
